

A Note from the Owner ...

Parents & Students,

Welcome back to another year of dance here at Bailey Fine Arts Centre!

Did you know participating in an arts-based extra-curricular activity (such as dance) helps children gain:

- An increased sense of **self-worth** and **self-confidence**
- Generally **high grades** in school
- **Creative thinking/understanding**
- An extended **social network**
- Understanding of **time management & goal prioritization**
- Heightened **physical fitness**

Within the infrastructure of dance studio programming, students have the opportunity to **work independently and in teams, set personal goals, and experience success and failure** in a variety of ways. An abundance of life skills are experienced and taught within the dance studio environment. Such skills go beyond a student's dance training and can be applied in school, college, and career.

Please remember that your dancer is **learning** about what they **can accomplish through hard work and determination**. They're **learning life skills** that will **help them be successful!** Kudos to all of you for offering your children this opportunity!
